Wood Professional Cosmetics

# ENTOMOKTONO - ΠΑΡΑΣΙΤΟΚΤΟΝΟ

## PACKAGING

Code 0084S - 12 x 400ml Spray

## DESCRIPTION

Mix of pure solvents, virtually odourless, specially formulated for the protection of unfinished wood surfaces. On unfinished surfaces, apply generously to protect against harmful agents, with no contraindications for subsequent treatments. On attacked surfaces, injected in affected areas; product action is guaranteed without removal of the paint finish. If necessary, apply several coats.

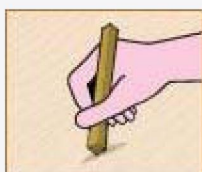

## METHOD OF USAGE

Before use, shake the container well for a few seconds.

Spray and adequate amount of product directly onto the surface at a distance of approx. 25 cm.

In the event of micro-cracks, seal off the hole after application of Holz 2000 with soft wax, to increase efficiency of the surface treatment.

If necessary, apply several coats.
