

PATINA ANTIKE

DESCRIPTION:

This paste, made from "Judaic bitumen", is an ideal product for restoration work by giving a quality patina and an antique look to furniture and other wooden components.

CHEMICAL/PHYSICAL CHARACTERISTICS:

Appearance :	thick liquid
Color :	coloured
Odor :	typical

HOW TO USE:

On a surface free from wax, oil and grease, apply the ANTIQUE PATINA using a brush or cotton wool buffer. Remove any excess of patina with steel wool "000" or even by rubbing with a cloth. Leave to dry for at least 4-6 hours at 20°C. Fix the patina with Basecoat Gel, finish with Shellac French Polish, or with Beeswax in paste form.

STORAGE:

Store in a cool, well ventilated place, keep the container closed when not in use. Keep away from heat, flames, sparks and other sources of ignition.

PACKAGING:

The product comes in 500 mL, Lt. 1 and Lt. 5 sized cans.

WARNING:

Our technical sheets are compiled on the bases of results of our tests. Nevertheless our technical advice is given in good faith, but without a guarantee. Indeed different supports, conditions, applications, installations, dilutions are integrating parts of the final result and often beyond every control. The user must test the supplied products to verify if it is adaptable for his/her needs.

We can guarantee the continuity of the physical and chemical characteristics.
